Favourite hotel? Papaya Playa Project in Tulum Beach, Mexico – a beautiful place with equally beautiful people and service.
Favourite design piece collected abroad? A 50s movie poster I found at an antiques store in Nice, France.
Most memorable travel experience? Finding the only restaurant on a remote Greek island with no electricity. But we were still drinking and eating until the early hours.
Favourite destination? Barcelona. No matter what I'm doing, I always have a great time. And I love starting the night late.
Travel must-haves? I take two things every time I step on a plane: face moisturiser and extra power for my phone.
Travel plans for 2020? Exploring more of Asia via Korea and China. Also, sneaking in a small trip back to Greece to soak up some sun along the way.
